

**PNEUMATIC DRILLING MACHINE MSR-1.X SEGEDA.**

The MSR-1.X DRILLING is a pneumatic perforating machine designed by SEGEDA for use in drilling prior to cutting with diamond thread. It is a machine which is designed to work, above all, in semi-hard and hard rocks. Some of its most important characteristics are its great stability and robustness and it is very reliable in both vertical and horizontal drilling.

Using DTH hammer for drilling since 3" (Ø90mm) or 4" (Ø100mm in soft stone)
